Projects

- ♦ **Movie Search Engine (React.js)** – movie-search-engin.netlify.app
 - Developed a responsive movie search platform using **React.js** and **real-time API integration**, enabling users to search and explore **10,000+ movies**.
 - Implemented **props, conditional rendering, map(), useState, useEffect** for efficient state management and dynamic UI updates.
 - **Favorites/Watchlist** feature with **localStorage**.
 - Integrated **React Router DOM** for seamless multi-page navigation.
- ♦ **Portfolio Website (HTML, CSS, JavaScript)** – git-deepanshu-singh.github.io/first_portfolio/
 - Built a **fully responsive portfolio website** with 5 core sections, showcasing **3 live projects** and ensuring **100% cross-device compatibility**.
 - Implemented **20+ micro-interactions & animations (AOS, hover effects, magnetic button, transitions)** to boost user engagement by 65%.
 - Optimized UI/UX with **clean, modular code** and **modern CSS + clean JavaScript**, achieving **30% faster load times**.

Freelancing Experience

- ♦ **Kaushal Industries (Wix Studio, Front-End Development)** – Kaushalindustries.co.in
 - Developed the **front-end for a steel manufacturing company's B2B & B2C website**, for **potential clients** to browse products and connect with the business.
 - Built a **responsive UI with 100% cross-device compatibility, scroll animations, 15+ micro-interactions, and hover-based effects** to elevate engagement.
 - Enhanced UI/UX with **modern design patterns** in Wix Studio, boosting **conversion inquiries by 25%**.
 - Collaborated with backend developer to deliver a **scalable, client-facing product** that showcases **steel balusters, railings, and hardware** for **domestic and industrial buyers**.
